Front Street Canadian Hedge

Notes to Financial Statements

June 30, 2008 (unaudited)

1. ESTABLISHMENT OF THE FUND

Front Street Canadian Hedge (the "Trust") is an investment trust created under the laws of the Province of Ontario pursuant to a Trust Agreement dated September 30, 2003 which was amended and restated on January 31, 2005 (the "Trust Agreement"). HSBC Trust Company (Canada), a trust company incorporated under the laws of Canada, which is authorized under the laws of the Province of Ontario to carry on the business of a trust company, is the trustee of the Trust (the "Trustee"). Front Street Capital, a Trust formed pursuant to a Trust Agreement dated as of October 1, 2001, is the manager of the Trust (the "Manager") pursuant to the Trust Agreement.

The Trust's investment objective is to provide holders of units (the "Unitholders") with long term capital growth primarily through the selection and strategic trading of both long and short positions in equity, debt and derivative securities. The Trust's portfolio (the "Portfolio") will consist primarily of investments which generate capital gains, but will also include investments which generate income.

The beneficial interest in the Trust will be divided into interests in two series of units (the "Trust Units"), designated as common "A" series units (the "A units") and "F" series units (the "F units").

The Trust is not a "mutual fund" that is a reporting issuer or equivalent for securities law purposes. As a result, the protections provided to investors in mutual funds that are reporting issuers or equivalent under such laws are not available to investors in the Trust.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These financial statements are prepared in accordance with Canadian generally accepted accounting principles ("GAAP"). In applying GAAP, management may make estimates and assumptions that affect the reported amounts of assets, liabilities, investment income and expenses reported during the period. Actual results could differ from these estimates.

Adoption of new accounting standards - Section 3862, Financial Instruments – Disclosure and Section 3863, Financial Instruments – Presentation

As at January 1, 2008, the funds applied the requirements of Canadian Institute of Chartered Accountants (CICA) Handbook Section 3862, Financial Instruments – Disclosure and section 3863, Financial Instruments – Presentation. These sections replace section 3861, Financial Instruments – disclosure and presentation and enhance existing standards regarding financial instruments disclosure and presentation.

Front Street Canadian Hedge

Notes to Financial Statements

June 30, 2008 (unaudited)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Adoption of new accounting standards – Section 3855

On April 1, 2005, the Canadian Institute of Chartered Accountants ("CICA") issued Section 3855, Financial Instruments – Recognition and Measurement, of the CICA Handbook – Accounting ("Section 3855"). Section 3855 establishes standards for the fair valuation of investments as well as the accounting treatment of transaction costs. The adoption of Section 3855 resulted in the use of different valuation techniques for certain investments. The new accounting standard applies to fiscal years beginning on or after October 1, 2006. For financial reporting purposes, on January 1, 2007, the Fund adopted Section 3855.

Section 14.2 of National Instrument 81-106 ("NI 81-106"), issued by the Canadian Securities Administrators ("CSA") in 2005, requires the daily net asset value of an investment fund to be calculated in accordance with GAAP. As the adoption of Section 3855 results in the use of different valuation techniques than previously used, Canadian securities regulatory authorities have granted relief to investment funds, for the purposes of calculating and reporting the net asset value (other than for financial reporting purposes) on each valuation date (the "Transaction NAV"), from complying on an interim basis with Section 3855, until the earlier of September 30, 2008 or the date on which the proposed amendments to NI 81-106 issued by the CSA on June 1, 2007 come into effect.

In accordance with the decision made by the Canadian securities regulatory authorities, a reconciliation between the Transaction NAV and the net asset value calculated in accordance with Section 3855 (the "GAAP NAV") of an investment fund is required in the notes to the financial statements. Refer to Note 8 for the reconciliation as at June 30, 2008.

Valuation of investments

The fair value of investments as at the financial reporting year end is determined as follows:

(a) Adoption of Section 3855

Investments that are held for trading are presented at fair value. The fair value of investments as at the financial reporting period end is determined as follows:

- (i) Securities listed upon a recognized public stock exchange are valued at their bid prices on the valuation date. Securities sold short listed upon a recognized public stock exchange are valued at their ask prices on the valuation date. In a situation where, in the opinion of the Manager, a market quotation for a security is inaccurate, unreliable or not readily available, the fair value of the security is estimated using valuation techniques, on such basis and in such manner as established by the Manager.

Front Street Canadian Hedge

Notes to Financial Statements

June 30, 2008 (unaudited)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES(Cont'd)

- (ii) Securities not listed upon a recognized public stock exchange are valued using valuation techniques, on such basis and in such manner as established by the Manager.
- (iii) Short term notes, treasury bills, bonds, asset backed securities and other debt instruments are valued at the bid quotations from recognized investment dealers.

(b) Prior to the adoption of Section 3855

Investments owned and investments sold short are valued by the Manager based on external pricing sources to the extent possible in accordance with the Trust Agreement as of the close of business on the relevant business day.

- (i) When available, closing and/or average prices will be obtained from broker dealers and exchanges; however, such prices may be adjusted if a more accurate value can be obtained from recent trading activity or by incorporating other relevant information that may not have been reflected in pricing obtained from external sources. In addition, prices may be adjusted to reflect bid offer pricing spreads in which securities markets close at different times.
- (ii) Securities for which market quotations are available, but which are restricted as to saleability or transferability will be valued as provided above, less an appropriate discount based on the value and terms of the restrictions.
- (iii) Where market quotations are not available, the fair value will be determined by the Manager based on standard industry practice.

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commission paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. With the adoption of Section 3855, the transaction costs are expensed and are included in "Transaction costs" in the Statement of Operations. Prior to the adoption of Section 3855, transaction costs were capitalized and included in the cost of purchases or proceeds from the sale of investments. There is no impact on the net asset value of the Trust in using either of these methods.

Cost of investments

The cost of investments represents the amount paid for each security, and is determined on an average cost basis excluding transaction costs. Prior to the adoption of Section 3855, transaction costs were included in the determination of cost of investments.

The following accounting policies were not impacted by the adoption of Section 3855:

Front Street Canadian Hedge

Notes to Financial Statements

June 30, 2008 (unaudited)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Investment transactions and income recognition

Investment transactions are recorded on the transaction date and any realized gains or losses are recognized using the average cost of the investment. Interest income is recognized on an accrual basis, with dividends being recorded on the ex-dividend date. Distributions from income funds include trusts and limited partnerships and are recognized on the ex-distribution date. Net realized gains (losses) on the sale of investments include net realized gains or losses from foreign currency changes.

Interest and borrow fees

As a result of taking both long and short positions, the Trust incurs both interest expense and borrow fees. While the use of borrowed funds can substantially improve the return on invested capital, its use may also increase the adverse impact to which the investment portfolio of the Trust may be subjected by increasing the Trust's exposure to capital risk and higher current expenses.

Income tax

The Trust is taxed as a mutual fund trust under the Income Tax Act (Canada). The Trust is required to make distributions each year of its net income and net realized capital gains, and therefore will not generally be liable for income tax. It is the intention of the Trust to distribute all of its net income and net realized capital gains on an annual basis. Accordingly, no tax provision has been recorded.

Foreign exchange

The fair value of investments and other assets and liabilities that are denominated in foreign currencies are translated into Canadian dollars at the closing rate of exchange on each valuation date. Purchases and sales of investments and income derived from investments are translated at the rate of exchange prevailing on the respective dates of such transactions. The Trust does not separately report the effects of changes in foreign exchange rates from changes in market prices on investments held. Such changes are included in net realized and unrealized gain or loss on investments.

Net asset value per unit

The net asset value per unit is calculated by dividing the net asset value of a series of units by the total number of units of a series outstanding at the end of the year.

Increase (decrease) in net assets from operations per unit

Increase (decrease) in net assets from operations per unit is based on the increase (decrease) in net assets from operations attributed to each series of units, divided by the weighted average number of units outstanding of that series during the year.

Front Street Canadian Hedge

Notes to Financial Statements

June 30, 2008 (unaudited)

Future Accounting Changes

In January 2006, the CICA Accounting Standards Board ("AcSB") adopted a strategic plan for the direction of accounting standards in Canada. As part of that plan, the AcSB confirmed in February 2008 that International Financial Reporting Standards ("IFRS") will replace Canadian GAAP in 2011 for profit oriented Canadian publicly accountable enterprises.

The Manager is currently evaluating the impacts of this change and developing its plan for the Fund. The manager has presently determined that there will be no impact to net asset value per unit from the changeover to IFRS. The impact of IFRS on accounting policies and implementation decisions will mainly be in the areas of additional notes disclosures in the financial statements of the fund. The Manager will develop a plan prior to the 2008 year end and will disclose this plan in the 2008 annual financial statements.

3. DUE FROM BROKER (CASH BALANCES)

Due from broker is an account holding cash balances and short-term, highly liquid investments with original maturities of 356 days or less.

4. DUE TO BROKER

Due to broker are margin accounts representing cash loans with brokers and are secured by the underlying securities owned by the Trust.

5. RELATED PARTY TRANSACTIONS

Management fees:

Management fees equal to one-twelfth of 2.0% of the Series Net Asset Value in respect of the "A" units and one-twelfth of 1% of the Series Net Asset Value in respect of the "F" units, based on the weekly net asset value calculations during each month plus applicable taxes and related expenses, are payable within ten business days after the end of each month. Management fees are payable to the Manager.

Performance fee:

The performance fee per unit of each Series is paid to the Manager based on the Trust's annual performance. The performance fee is calculated and accrued monthly as 20% of the Trust performance in excess of a minimum performance as specifically defined in the Trust Agreement.

Front Street Canadian Hedge

Notes to Financial Statements

June 30, 2008 (unaudited)

6. UNITS OF THE TRUST

Authorized

The Trust is authorized to issue an unlimited number of redeemable units of beneficial interest, each of which represents an equal, undivided interest in the net assets of the Trust. Each unit entitles the holder to one vote and to participate equally with respect to any and all distributions made by the Trust. The redemption price per unit will be equal to the net asset value per unit calculated on the redemption date. Units of the Trust surrendered for redemption at least 30 days prior to the last business day of each quarter (a "Valuation Date") will be redeemed at a redemption price equal to the net asset value per unit on such valuation date. Redemption of units prior to the first anniversary of the purchase of such units will be subject to an early redemption fee equal to 1% of the net asset value of the units so redeemed

	Series "A"	Series "F"	Total 2008	Total 2007

7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Fund's investment activities expose it to various types of risk associated with the financial instruments and markets in which it invests directly. The following is a summary of the main risks:

Credit risk

Financial assets which potentially expose the Fund to credit risk consist principally of investments in bonds, amounts due from brokers and derivatives. The Fund seeks to mitigate its exposure to credit risk by placing its cash and transacting its securities activity with large financial institutions. The Fund also invests in corporate bonds. Until the bonds are sold or mature, the Fund is exposed to credit risk relating to whether the bond issuer will meet its obligation when they come due. The extent of the Fund's exposure to credit risk in respect of these financial assets is reflected in their carrying value as recorded in the Fund's Statement of Net Assets.

Liquidity risk

Liquidity risk is the risk the Fund will encounter difficulty in meeting obligations associated with financial liabilities. Unitholder redemption requests are the main liquidity risk for the Fund.

Front Street Canadian Hedge

7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Liquidity risk (continued)

The Fund maintains sufficient cash and marketable securities, and manages liquidity risk through its ability to close out market positions. The following table details the Fund's liquidity analysis for the financial liabilities.

					2008
	Less than one month	1-3 months	3-12 months	Greater than one year	Total
	\$	\$	\$	\$	\$
Investments sold short					
at fair value	7,673,556	-	-	-	7,673,556
Due to broker	7,797,642	-	-	-	7,797,642
Accounts payable and accrued liabilities	-	284,485	-	-	284,485
Redemption payable	1,304,188	-	-	-	1,304,188
Management fees payable	391,710	-	-	-	391,710
	17,167,096	284,485	-	-	17,451,581
Total Net Assets	242,847,968				242,847,968

Price risk

Price risk, is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market.

The Fund is exposed to market price risk on arising from its investments in securities and derivatives. The Investment Advisor manages the Fund's market risk on a daily basis in accordance with the Fund's investment objective and policies.

Price sensitivity

The following details the Fund's sensitivity to 5% increase and decrease in the fair value, with 5% being the sensitivity rate used when reporting price internally to key management personnel and representing management's assessment of possible change in fair value.

At June 30, 2008, if the fair value had been 5% higher with all other variables held constant, the increase in net assets representing unitholders' equity for the period would have been \$10,890,454 higher, arising due to the increase in the fair value of financial assets at fair value by \$11,274,132 offset by the increase in the fair value of the financial liabilities at fair value by \$383,678.

If fair value had been 5% lower with all other variables held constant, the decrease in net assets representing unitholders' equity for the period would have been \$10,890,454 lower, arising mainly due to the decrease in the fair value of financial assets at fair value by \$11,274,132 offset by the decrease in the fair value of the financial liabilities at fair value by \$383,678.

7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Currency risk

The Fund holds assets denominated in currencies other than Canadian Dollars which is the functional currency. The Fund is therefore exposed to currency risk, as the value of the securities denominated in other currencies fluctuates due to change in exchange rates.

The table below summarizes the Fund's exposure to currency risk due to concentration of assets in foreign currencies.

Currency	Financial Instruments	Cash	Total	Percentage of NAV
Australian Dollars	503,358	-	503,358	0.21%
Sterling Pounds	929,614	2	929,616	0.38%
United States Dollars	14,914,353	(112,152)	14,802,201	6.10%
Total	16,347,325	(112,150)	16,235,175	6.69%

Interest rate risk

The Fund may invest in fixed and floating rate securities. The income of the Fund may be affected by changes to interest rates relevant to particular securities or as a result of management being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed interest securities may be affected by interest rate movements or the expectation of such movement in the future. Interest payable on bank overdraft or broker margin account positions will be affected by fluctuations in interest rates. As at June 30, 2008, there were 2.1% of investments owned which are held in bonds. There were 13.1% investments in short-term investments of the investments owned. The remaining portion of the Fund's assets is substantially non-interest bearing equity investments and its exposure to interest rate changes is minimal.

Capital management

Management considers the Fund's capital to consist of the net assets representing unitholders' equity.

The Investment Advisor manages the capital of the Fund in accordance with the Fund's investment objectives, policies and restrictions, as outlined in the Fund's offering memorandum, while maintaining sufficient liquidity to meet unitholder redemptions. The Fund's overall strategy for managing capital remains unchanged from 2007.

The Fund does not have any externally imposed capital requirements.

8. RECONCILIATION OF TRANSACTIONAL NAV TO GAAP NAV

In accordance with the decision made by the Canadian securities regulatory authorities, a reconciliation between the Transaction NAV and the GAAP NAV of an investment fund is required. For investments that are traded in an active market where quoted prices are readily and regularly available, Section 3855 requires bid prices (for investments held) and ask prices (for investments sold short) to be used in the fair valuation of investments, rather than the use of closing sale prices currently used for the purpose of determining Transaction NAV. For investments that are not traded in an active market, Section 3855 requires specific valuation techniques be used which may differ from those valuation techniques used in prior years. These changes account for the difference between Transaction NAV and GAAP NAV.

	Net Asset Value			Net Asset Value Per Unit		
	Transactional NAV	Section 3855 Adjustment	GAAP NAV	Transactional NAV	Section 3855 Adjustment	GAAP NAV
Series A	204,097,453	(1,055,421)	203,042,032	19.00	(0.10)	18.90
Series F	40,011,621	(205,685)	39,805,936	19.49	(0.10)	19.39

9. EXPENSES

The Manager may pay out of the Trust property all expenses relating to the operation of the Trust and the carrying on of its business. These expenses may include management fees, performance fees, bookkeeping, legal, audit, trustee, registrar and transfer agency, custodial and safekeeping fees, taxes, brokerage commissions, advertising costs, interest, operating and administrative costs, Unitholder servicing costs, and costs of financial and other reports that are used in complying with the laws, regulations and policies regulating the issue or sale of units.

10. DISTRIBUTION POLICY

The Trust intends to distribute all of its income for purposes of the Tax Act, including sufficient net realized capital gains (less applicable losses), on an annual basis, so that the Trust will not be liable for income tax. Distributions over the life of the Trust will be derived primarily from net realized capital gains and income from the investment portfolio.

11. INDEMNIFICATION OF THE MANAGER

The Trust, under the terms of its Trust Agreement, shall indemnify the Manager, its principals and their respective affiliates from all claims that may arise for (i) mistakes of judgment or for action or inaction or for losses due to such mistakes, action or inaction so long as they acted honestly and not in bad faith and reasonably believed that their conduct was in the best interests of the Trust and (ii) losses due to mistakes of judgment or the action or omission of any broker or agent of the Manager, selected, engaged or retained by the Manager, its principals or their respective affiliates

12. STATEMENT OF CASH FLOWS

A statement of cash flows has not been included as management believes that such a statement would not provide additional meaningful information.

13. FILING EXEMPTION

The Trust is relying on the exemption pursuant to Section 2.11 of National Instrument 81-106, to not file its financial statements with the Ontario Securities Commission.
